

## Focus on *bacteriology*

## A complete line of **bacteriology** rapid tests:

With the aim of the bacteriological screening, it is important to have a quick and immediately usable answer about hypothetical infection status of the patient. Immunospark provides a range of solutions for rapid bacteriological screening applicable to multiple clinical disciplines, in order to provide a preliminary diagnostic information in a few minutes to be confirmed by systems based on immunological or molecular technology. The tests are run on different types of sample (swab, stool, blood or serum).

### Quickspark Rapid **STD & Gyne** tests

- *RTBA004*      *Syphilis screening*
- *RTBA005*      *Chlamydia trachomatis*
- *RTBA007*      *Strep B*
- *RTBA016*      *Neisseria gonorrhoeae*
- *RTBA017*      *Bacterial Vaginosis screening*
- *RTBA018*      *Ureaplasma urealyticum Ab*
- *RTBA019*      *Mycoplasma hominis Ab*
- *RTBA019B*     *Mycoplasma genitalium Ab*
- *RTBA028*      *Gardnerella vaginalis*

**SERUM & SWAB Specimen**

## Quickspark Rapid **gastroenterology** tests

### SERUM & STOOL Specimen

- RTBA001 H. pylori Antibodies
- RTBA002 H. pylori Antigen
- RTBA003 Escherichia coli
- RTBA011 V. cholerae 01
- RTBA012 V. cholerae 0139
- RTBA013 S. typhi Ag
- RTBA014 S. typhi/paratyphi Ag
- RTBA015 S. typhi IgG/IgM
- RTBA023 Fecal Clostridium diff. GDH

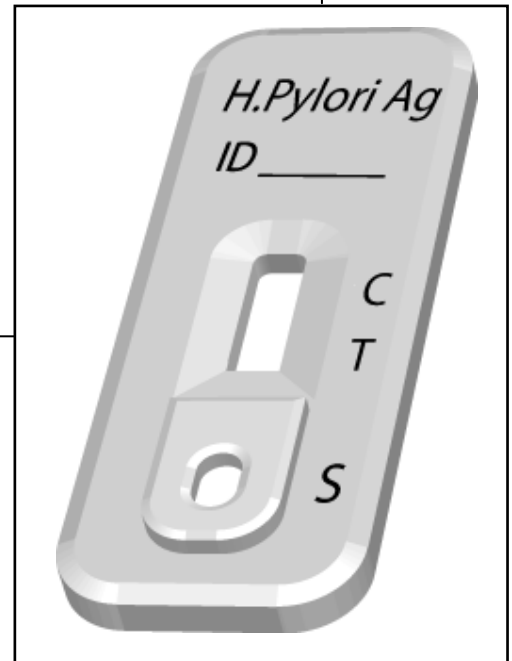

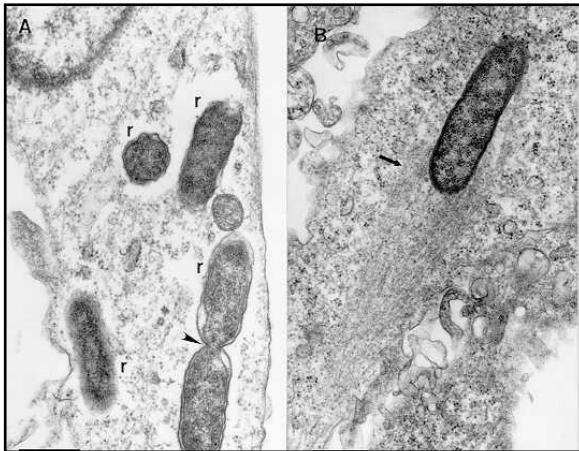

## Quickspark Rapid **gastroenterology** tests

### SERUM & SWAB Specimen

- RTBA006 Strep A
- RTBA008 MTB
- RTBA010 Legionella Antibody
- RTBA024 Mycoplasma pneumoniae Ab
- RTBA024M Mycoplasma pneumonia IgM
- RTBA025G Bordetella G
- RTBA025M Bordetella M
- RTBA026 Leptospira IgG/IgM
- RTBA027 Legionella pneumophila Antigen

## Quickspark Rapid **Miscellaneous** serum/blood tests

- RTBA009 Rickettsia IgG/IgM
- RTBA020 Echinococcus Ab
- RTBA021 Tetanus Toxin
- RTBA022 Borrelia
